N2 wavelet-grid controls: spacing (hgrid), coarse region (crmult), fine region (frmult)
hgrid = 0.25 a0, rmult = [5, 8]
hgrid = 0.45 a0, rmult = [3.5, 6]
coarse: scaling functions
fine: +7 wavelets per point
y (a0)
z (a0, bond axis)
Schematic 2D support masks; not a molecular-orbital plot.
